System Requirements

System requirements for using BREEZE for Dynamics 365 BC

- Supported Microsoft Dynamics 365 Business Central versions
- Supported BREEZE versions

Supported Microsoft Dynamics 365 Business Central versions

Microsoft Dynamics 365 Business Central integration is possible from the following version due to minimum technical requirements:

Supportet Microsoft Dynamics 365 Business Central Versions

> The prerequisite for operation is that the respective Microsoft Dynamics 365 Business Central version is still in regular support. The extended support is excluded.

Licensing — Customer/Partner Responsibility: Editing Business Central data still requires each approver/editor to hold a suitable, paid Business Central user licence; a Microsoft 365 licence alone is not sufficient. DEXPRO makes no warranty regarding licensing — the customer and their Microsoft licensing partner are responsible for clarifying the exact requirements with Microsoft.

Supported BREEZE versions

A licensed BREEZE system is required to connect BREEZE to Microsoft Dynamics 365 Business Central and for operation.

- minimum Documents Version: Documents 5h #2311
- minimum DEXPRO Invoice Solution Version: Invoice 1.1.015
