

eas Index defekt (File does not exist)

Wenn dieser Fehler auftritt, hilft bisher nur der Neuaufbau des Index

Error - Exception thrown by server

Otris Exception Output

```
Type: N5boost10wrapexceptIN5otris6search17SearcherExceptionEEE
File: ../../../../Core/src/otris/eas/clucene/LuceneSearcher.cpp at line 210
Function: void otris::clucene::LuceneSearcher::initialize()
Info: Objectname="/var/lib/eas/store1/index"
Info: Message="File does not exist"
Info: ErrorCode="1"
```

Otris Exception Output

```
Type:      N5boost10wrapexceptIN5otris6search17SearcherExceptionEEE
File:      ../../../../Core/src/otris/eas/clucene/LuceneSearcher.cpp at line 210
Function: void otris::clucene::LuceneSearcher::initialize()
Info:      Objectname="/var/lib/eas/store1/index"
Info:      Message="File does not exist"
Info:      ErrorCode="1"
```

Der Neuaufbau kann durch folgenden Befehl gestartet werden:

```
docker compose exec eas eas -c /etc/eas/store1.ini --rebuild-index -v --force-reset-index
```
