

# Working with Electronic Invoices

## Sales Documents

### Sales Orders and Invoices

Sales documents such as orders and invoices now have a fact box for the e-invoice conformity check. This informs the user of the following:

- Required fields that are empty
- Validation warnings
- Compliance status

#### DEXPRO eInvoice Compliance Check

Status

Field	Source
<b><u>Payment Method Code</u></b>	 Sales Header
<b>Bill-to Country/Region Code</b>	Sales Header
<b>Ship-to Country/Region Code</b>	Sales Header

#### DEXPRO eInvoice Compliance Check

Status

**Document ready for DEXPRO eInvoice export!**

**Common Missing Fields:**

- Customer VAT registration numbers
- Complete billing addresses
- Valid email addresses
- Payment method codes

## Posted Sales Invoices

In the **Posted Sales Invoices** list, you'll see:

### New Fields:

- **DXP eInvoice Document Sent:** Shows if electronic document was sent

### New Actions:

 Download DEXPRO eInvoice     Email DEXPRO eInvoice

- **Download DEXPRO eInvoice:** Download electronic document
- **Email DEXPRO eInvoice:** Send electronic document via email

## Posted Sales Credit Memos

Similar functionality available in **Posted Sales Credit Memos**:

- Document status tracking
- Download and email actions

## Service Invoices

Electronic invoicing is also available for **Service Invoices** with the same functionality.

## Document Types and Formats

When downloading or emailing documents, you can choose from:

Select Sending Profile

- XRechnung XML
- ZUGFeRD PDF
- XRechnung XML and Standard PDF

OK

Abbrechen

1. **XRechnung XML**: Pure XML format compliant with German standards
2. **ZUGFeRD PDF**: Hybrid PDF with embedded XML data
3. **XRechnung XML and Standard PDF**: Both formats in a ZIP file

## Sending Documents

### Manual Sending

1. Open any posted sales document
2. Click **Email DEXPRO eInvoice**
3. Select the desired format
4. System automatically:
  - Generates the electronic document
  - Creates email with appropriate template
  - Sends to customer's email address

### Automatic Processing

The system can automatically process documents through the **Document Queue**:

- Documents are queued when posted
- Background processing generates and sends electronic documents
- Status tracking shows processing progress
