

PDF Viewer

The integrated **PDF Viewer** allows viewing PDF attachments directly within Business Central without leaving the application.

Features

- **FactBox:** The PDF Viewer is displayed as a FactBox on the search result page. When selecting an attachment, the PDF is rendered directly in the FactBox.
- **Full screen view:** The full-screen page allows viewing a PDF in a larger format.
- **Alternative PDF Viewer URL:** For on-premises environments with restricted internet access, an alternative URL for the PDF Viewer can be configured in the Freeze Setup.

Supported File Formats

The PDF Viewer displays PDF files directly. For other file formats, a placeholder PDF can be uploaded in the Freeze Setup, which is displayed instead of the file that cannot be rendered.

Revision #1
