Permission sets

In order to use the modules, the appropriate authorization set must be assigned to the respective users.

The following are supplied with:

- DXP Core Admin - DEXPRO Core Administrator
- DXP Core User - DEXPRO Core User
- DXP FREEZE Admin - DEXPRO FREEZE Administrator
- DXP FREEZE User - DEXPRO FREEZE User

Freeze Permission Sets

- **DXP Freeze Admin**: Full access (Read, Insert, Modify, Delete) to all Freeze tables and execution rights for all Freeze pages and codeunits. Suitable for administrators who manage the Freeze setup.
- **DXP Freeze User**: Access to all Freeze functions with restricted write permissions on setup tables (Setup, Store, User Setup, Additional Queries). Suitable for standard users who use Freeze on a daily basis.
