User Name	Show all results	Alternative Authentication Code
→ KOEPKE	<div></div>	

**Alternative authentication:** If users are to access the archive with alternative authentication, this can be entered here.

**Show all results:** The additional search queries (just like the full text search) only provide results for users who have been explicitly authorized to do so. This is necessary because archive folders that have not been archived via BC cannot be checked for effective authorizations due to the lack of a table number.
