Login with Microsoft

With Squeeze version 2.20, it is possible to log in easily using Microsoft Entra ID, also known as Azure AD.

This page describes how you can display a login button on the Squeeze login page. Once the configuration is complete, the login page will look like this:

Configuration in Microsoft Entra ID

Create a Microsoft Entra App for your organization

> The redirect URL is the URL of your Squeeze tenant with the additional path /sso/
>
> In this example it is https://private.squeeze.one/sso/

Register an application

* Name

The user-facing display name for this application (this can be changed later).

Squeeze Microsoft Login

Supported account types

Who can use this application or access this API?

- (•) Accounts in this organizational directory only [redacted] only - Single tenant)
- ( ) Accounts in any organizational directory (Any Microsoft Entra ID tenant - Multitenant)
- ( ) Accounts in any organizational directory (Any Microsoft Entra ID tenant - Multitenant) and personal Microsoft accounts (e.g. Skype, Xbox)
- ( ) Personal Microsoft accounts only

Help me choose...

Redirect URI (optional)

We'll return the authentication response to this URI after successfully authenticating the user. Providing this now is optional and it can be changed later, but a value is required for most authentication scenarios.

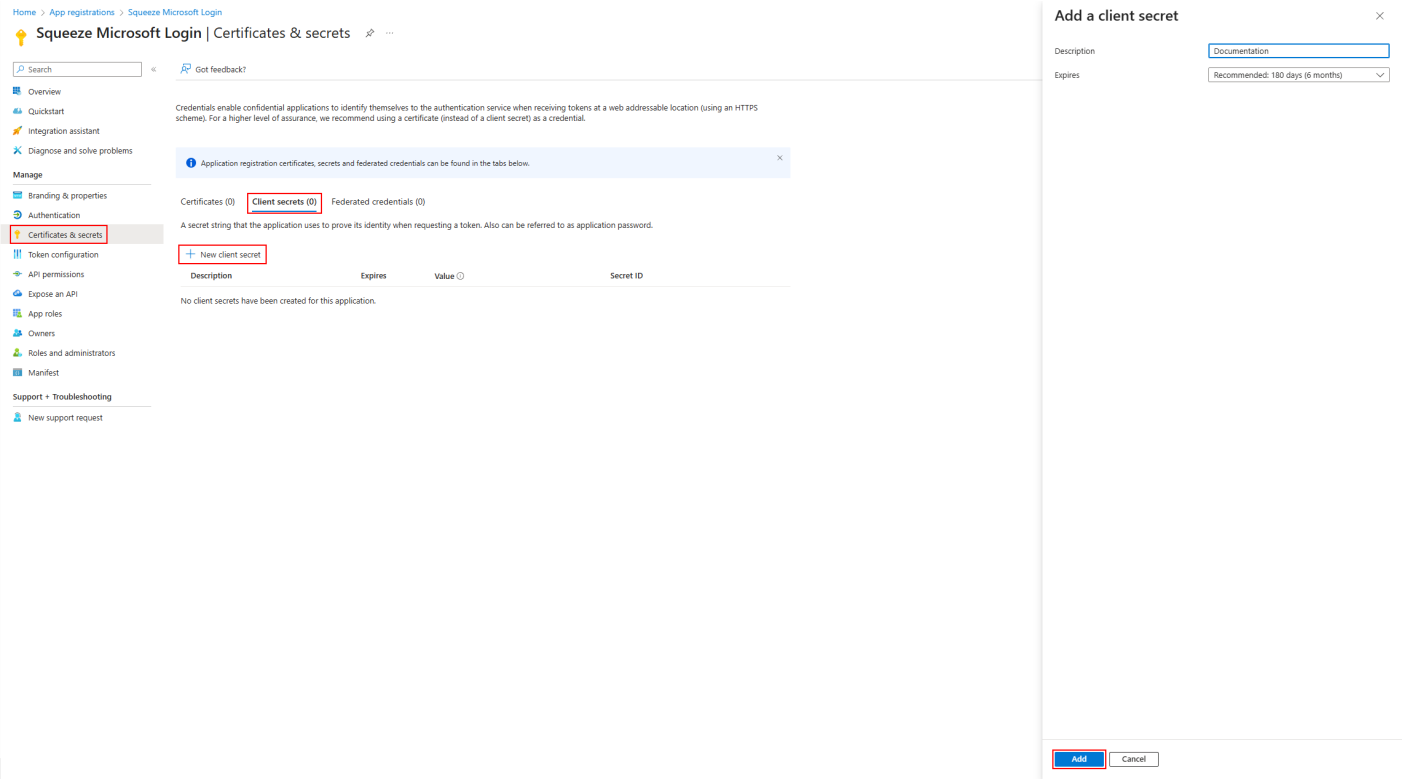

Web | https://private.squeeze.one/sso/

Register an app you're working on here. Integrate gallery apps and other apps from outside your organization by adding from Enterprise applications.

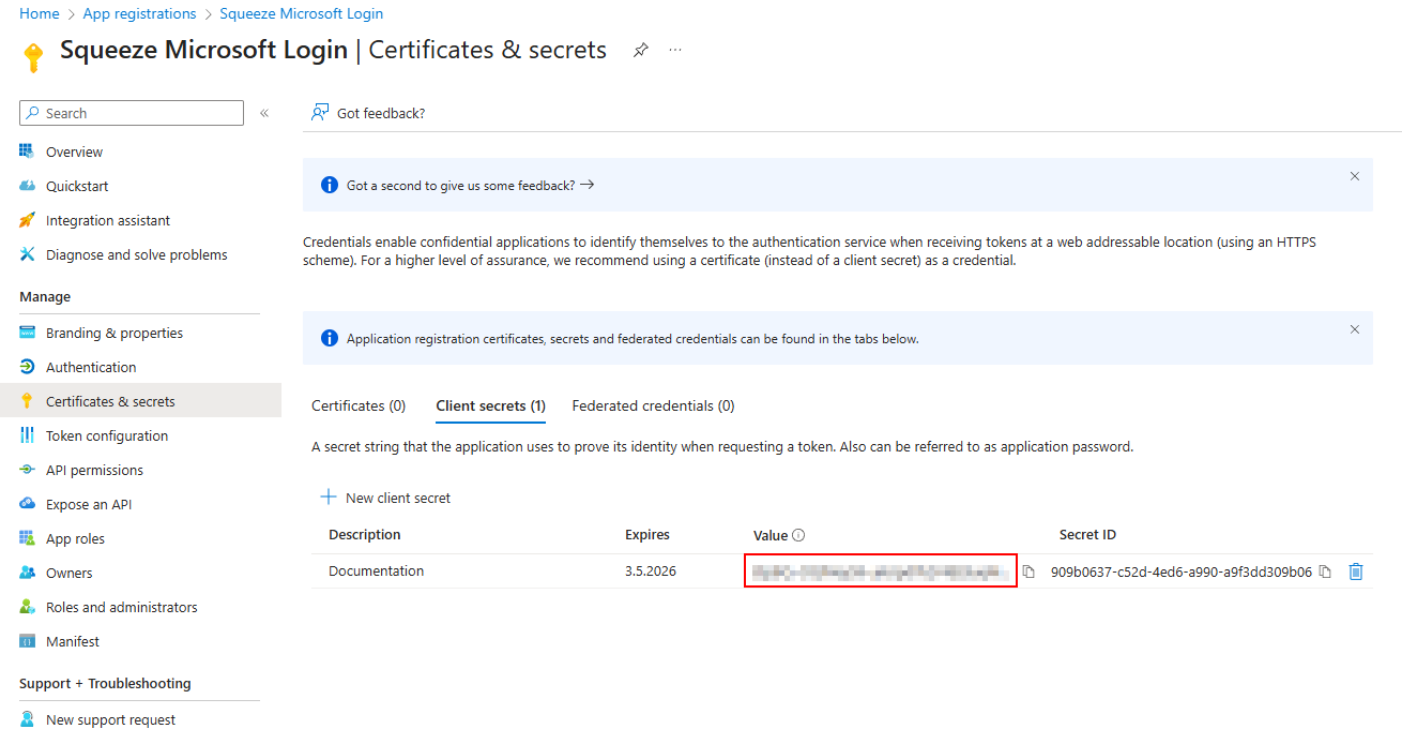

By proceeding, you agree to the Microsoft Platform Policies

Register

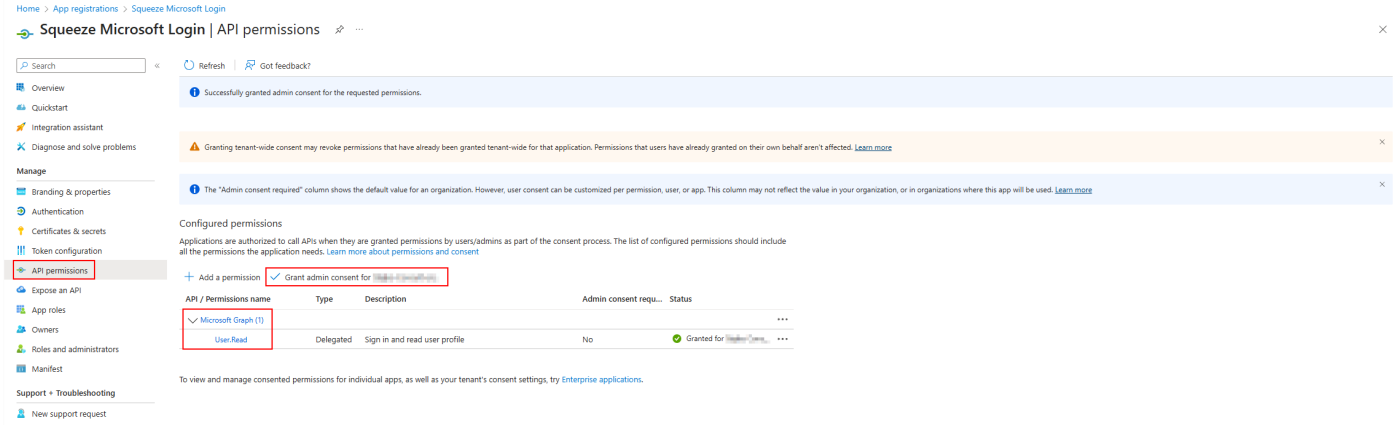

Create a client secret for the app

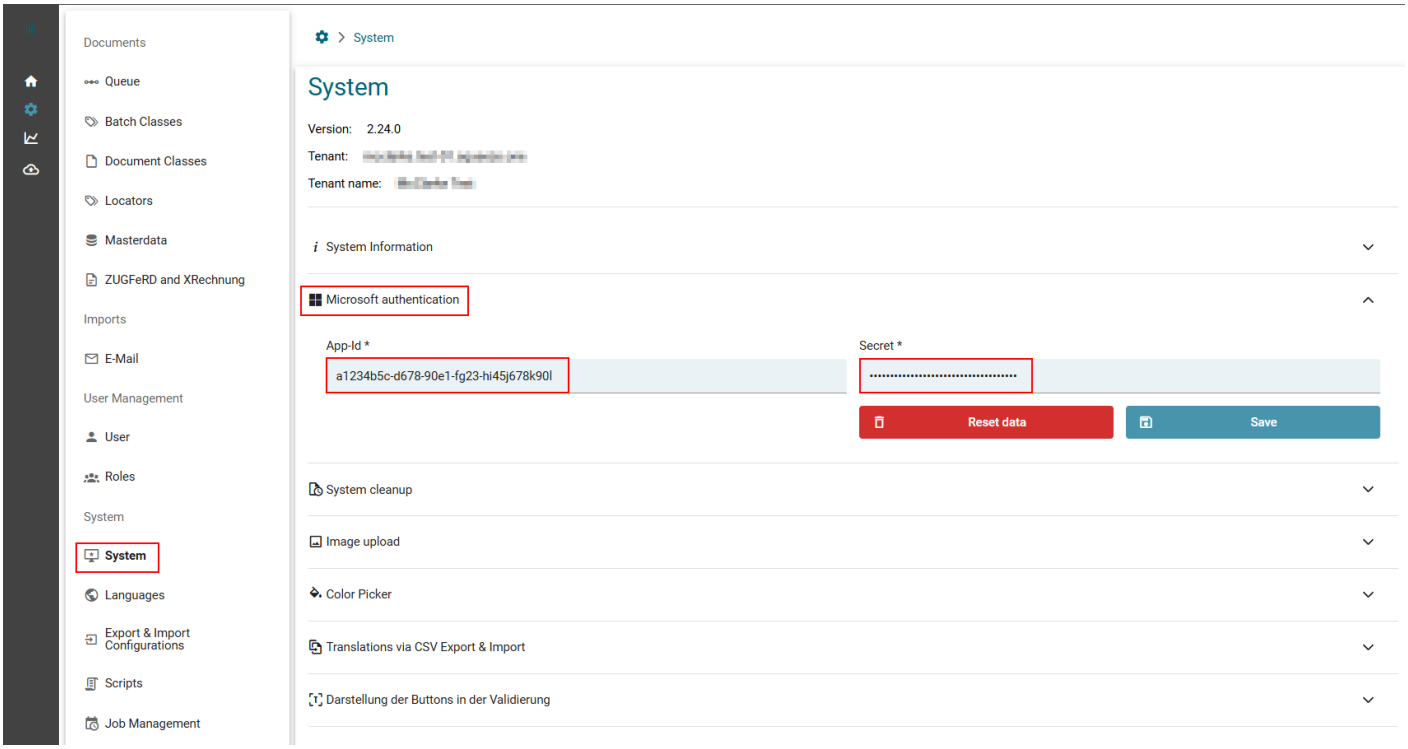

Copy the client secret value.
Please note that the secret cannot be viewed or copied later.

Add the API permissions

Enter the Client App-Id and client secret in Squeeze
