Installation

Licenses

Microsoft

Information about the Microsoft Business Central licenses.

SQUEEZE

The DEXPRO SQUEEZE system that should be connected to Business Central requires a valid customer license.

Obtaining the DEXPRO module

Detailed Information are here.

OnPrem

For OnPrem installations, an runtime package with the required apps is provided upon request of a registered reseller / partner. These modules are added to the customer license by the partner and then imported into Microsoft Dynamics Business Central. It should be noted that the DEXPRO Core module forms the basis for all DEXPRO modules and must therefore be imported first.

Cloud

For cloud installations, you only need the Microsoft AppSource. This is where the required DEXPRO modules are downloaded.
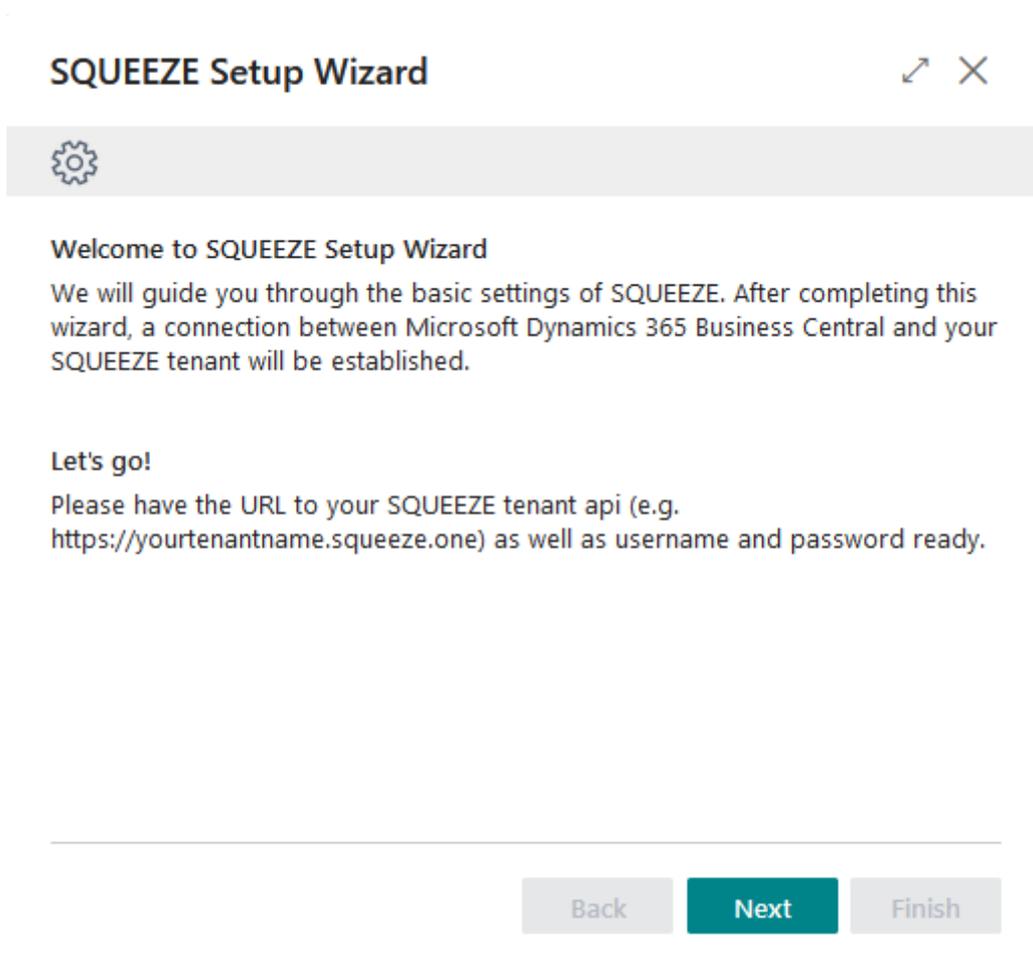

Setup Wizard

When the SQUEEZE setup is opened for the first time, you will be greeted by the SQUEEZE setup wizard.

This wizard guides the user step by step through the different facilities of the module.

Start

Selection SQUEEZE system

In this step the URL of the SQUEEZE system is stored.

Example: https://demo.msbc.squeeze.one

SQUEEZE Setup Wizard ⬈ ✕

⚙️

Please enter the required information and press Next to test the connection to your SQUEEZE client.

URL to your SQUEEZE tenant ⁙ ✳ [ ]

[Back] [Next] [Finish]

Login to the SQUEEZE system

In this step, you enter the user name and password of a valid SQUEEZE user with the Admin role. This data is only used once for the setup. Subsequently, the login to the SQUEEZE system takes place via API key.

Edit - Login

Please enter your credentails.

Username

Password

OK   Cancel

Number series for the SQUEEZE documents

In this step you select number series for the Core documents and the SQUEEZE documents. If none exists yet, you can also create a new entry via the number series selection.

SQUEEZE Setup Wizard

✓

The connection to your squeeze client has been successfully established.

Please choose the number series for your Core- and SQUEEZE Documents.

Core number series .... DXP   ⌄

SQUEEZE number series .... SQZ   ⌄

That's it!
After closing this window, you have the option to adjust additional settings according to your preferences.

Back   Next   Finish

Conclusion

By clicking on "Finish" you end the setup wizard. Subsequently, the SQUEEZE setup opened. Further configuration options are described here.
