Permission sets

In order to use the modules, the appropriate authorization set must be assigned to the respective users.

The following are supplied with:

- DXP Core Admin - DEXPRO Core Administrator
- DXP Core User - DEXPRO Core User
- DEXPRO SQUEEZE Admin - DEXPRO SQUEEZE Administrator
- DEXPRO SQUEEZE User - DEXPRO SQUEEZE User
- DEXPRO SQUEEZE Objects - Exec - a building block permission set that grants blanket execute (X) permission on all SQUEEZE objects. This set is Internal and not assignable; it is not meant to be assigned to users directly but is included by the other SQUEEZE permission sets.

DXP CORE ADMIN	DEXPRO Core Admin	System	DEXPRO Core
DXP CORE USER	DEXPRO Core User	System	DEXPRO Core
DXP SQUEEZE ADMIN	DEXPRO SQUEEZE Admin	System	DEXPRO SQUEEZE
DXP SQUEEZE USER	DEXPRO SQUEEZE User	System	DEXPRO SQUEEZE
